GDS® for your life

at home

on the road

at work

Why IntelliSkin®?

drop protection

IntelliSkin® device cases pass rigorous MIL-STD drop tests to withstand shock and impact. So, wherever the demands of life and work take you, rest assured IntelliSkin® has you covered.

data sync

GDS® docks charge your IntelliSkin® wrapped device and pass data to a variety of peripherals. Sync data to a computer and, using a connectivity hub, expand the use of your device with a monitor, keyboard, speakers, and more.

ruggedized contacts

IntelliSkin® integrates your device charge/sync port directly into the case. This prevents damage to the port from plugging and unplugging of cords. Ruggedized external contacts are designed for repetitious docking.

quick and simple

IntelliSkin® with GDS® Technology™ makes life easy. With a variety of GDS® docks available, your device is always protected and charged.

effortless upgrades

When upgrading a device, protect it with IntelliSkin® to allow charging/data transfer with your existing GDS® docks. The GDS® platform provides compatibility across multiple devices when wrapped with an IntelliSkin® case.

Industry applications

material handling

fleet

education

agriculture

law enforcement

military

healthcare

aviation

powersports

marine

sky's the limit

material handling

Mobile devices help track inventory, process shipments and manage efficiency. IntelliSkin® protects your devices and allows end-users the ability to dock and un-dock them quickly and safely.

fleet

With increasing regulatory pressures and the need to collect data, fleets are turning to consumer devices to meet these needs. IntelliSkin® allows drivers to keep devices charged, protected and mobile.
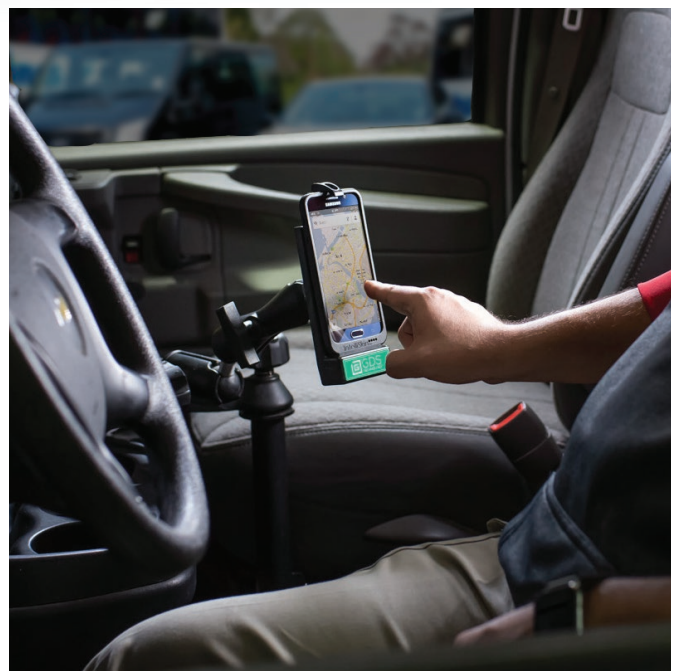

education

The future of education will require a mobile device in every student's hand. IntelliSkin® protects these devices while providing convenient multi-gang charging. This ensures ports are protected and devices are charged.

agriculture

Precision farming relies on accurate data collection and analysis. With integrated charging and data sync, IntelliSkin® protects and enables mobile devices to meet the rigorous demands of farmers.

public safety

Ensure your mission-critical information is available and with you on-the-go. IntelliSkin® provides ruggedized device protection and integrated charging whether in your vehicle or at your desk.

military

Protect your mobile devices and ensure reliable charging in the field or on deployment. IntelliSkin® is MIL-STD spec drop tested and protects charging ports in active environments.

healthcare

The medical industry requires data that must be accessed and updated in a mobile environment. Healthcare professionals rely on mobile devices to keep patient data at their fingertips. IntelliSkin® with GDS® supports charging, data sync and device protection.

aviation

The keys to safe and efficient airline travel are effective communication and planning. Mobile devices utilizing IntelliSkin® with GDS® Technology™ enable the reliable communication between all aspects of commercial airline operations.
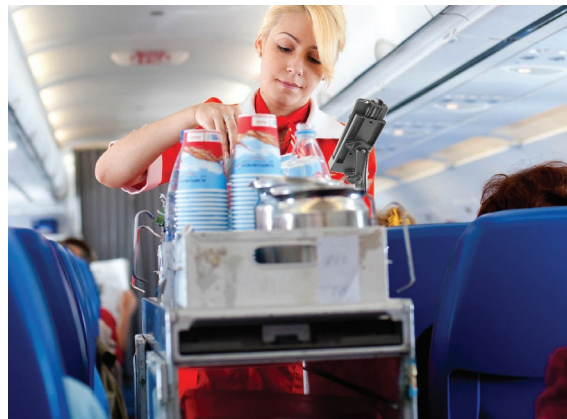

powersports

RAM® Mounts are known for their rugged and versatile mounting solutions. IntelliSkin® with GDS® continues this trend by providing constant device power and protection wherever the road takes you.

marine

It's not safe to lose your charge while out on the water. IntelliSkin® ensures your device stays charged in your boat, in your vehicle and at home. The GDS® docking system makes securing and docking your device easy.

Docking options

With GDS®, you get more out of your device and more out of life. GDS® is an expansive line of docks for your home, office and vehicle that creates a platform for all of your mobile computing needs.

desktop dock

The Desktop Dock is a single-port charging dock designed for everyday use. Our collection of desktop docks integrates data connectivity and power into the small, yet sturdy dock and is perfect for the home or office.

4 and 6-Port charge only desktop dock

Our sleek 4 and 6-port desktop docks streamline cord-clutter and keep your devices charged and ready. These docks offer integrated charging but no data sync, which means a smaller footprint and flexibility of where it can be deployed.

GDS® Slide Dock™

The GDS® Slide Dock™ can be integrated into any flat surface, charging carts, connected furniture and other similar applications.

universal vehicle dock

The Universal Smartphone GDS® Vehicle Dock is a spring loaded, quick release cradle that offers a secure fit with easy access. It provides mobile charging and data connectivity, and is compatible with all RAM® vehicle mount systems.

non-locking vehicle dock

The GDS® Non-Locking Vehicle Dock is a spring loaded, quick release cradle offering secure fit and easy access to the tablet. Each dock is compatible with a specific device providing mobile charging and data connectivity.

locking vehicle dock

The GDS® Locking Vehicle Dock is a spring loaded, quick release cradle with a keyed lock for security. Each dock is compatible with a specific device providing mobile charging and data connectivity.

charging accessories
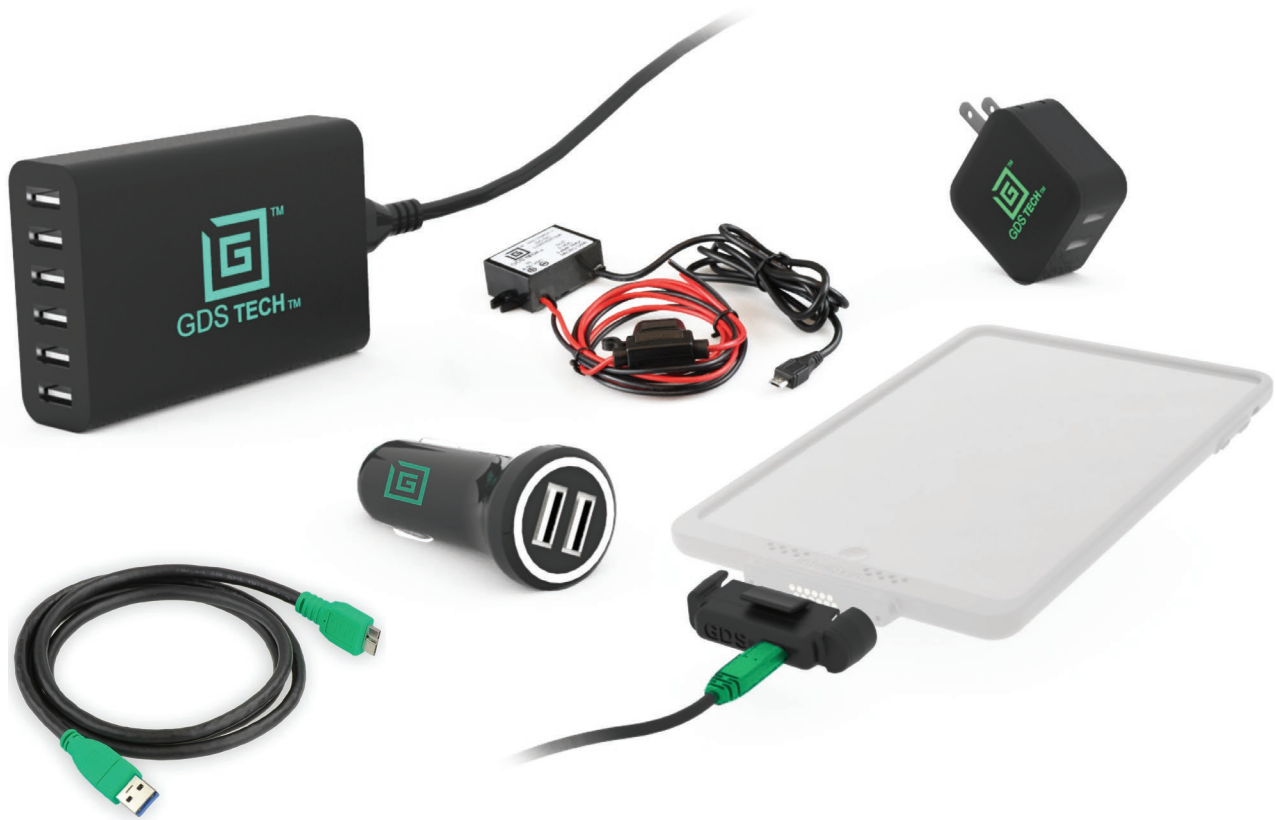

Expand your GDS® system with our complete
line of USB chargers and power accessories.

handstrap, kickstand and shoulder strap

The GDS® HandStand™ and shoulder strap accessories provide enhanced portability of your IntelliSkin® wrapped devices.

About RAM® Mounts

Founded in 1992, RAM® Mounts has become the most innovative manufacturer of mounting systems in the world. Our mounts are trusted to perform in rugged applications including commercial aviation, military, law enforcement, transportation and outdoor adventure sports.

The RAM® Difference

MADE IN THE USA
Designed and manufactured in Seattle, Washington

LIFETIME WARRANTY
RAM® products are backed by a lifetime warranty against manufacturer's defects for decades of worry-free use

MODULAR DESIGN
The rubber ball and socket design offers a secure hold with vibration dampening and component interchangeability

DESIGNED & DEVELOPED IN-HOUSE
Each RAM® Mount is designed in-house using the most advanced industry techniques

Building a custom RAM® mounting solution is easy.

holder

arm

Step 1: Select your base.

Choose from a variety of bases to help secure your device.

Step 2: Select an arm.

Choose an arm size based on your desired length.

Step 3: Choose your holder.

RAM® offers a wide selection of holders and cradles for your specific need.
